

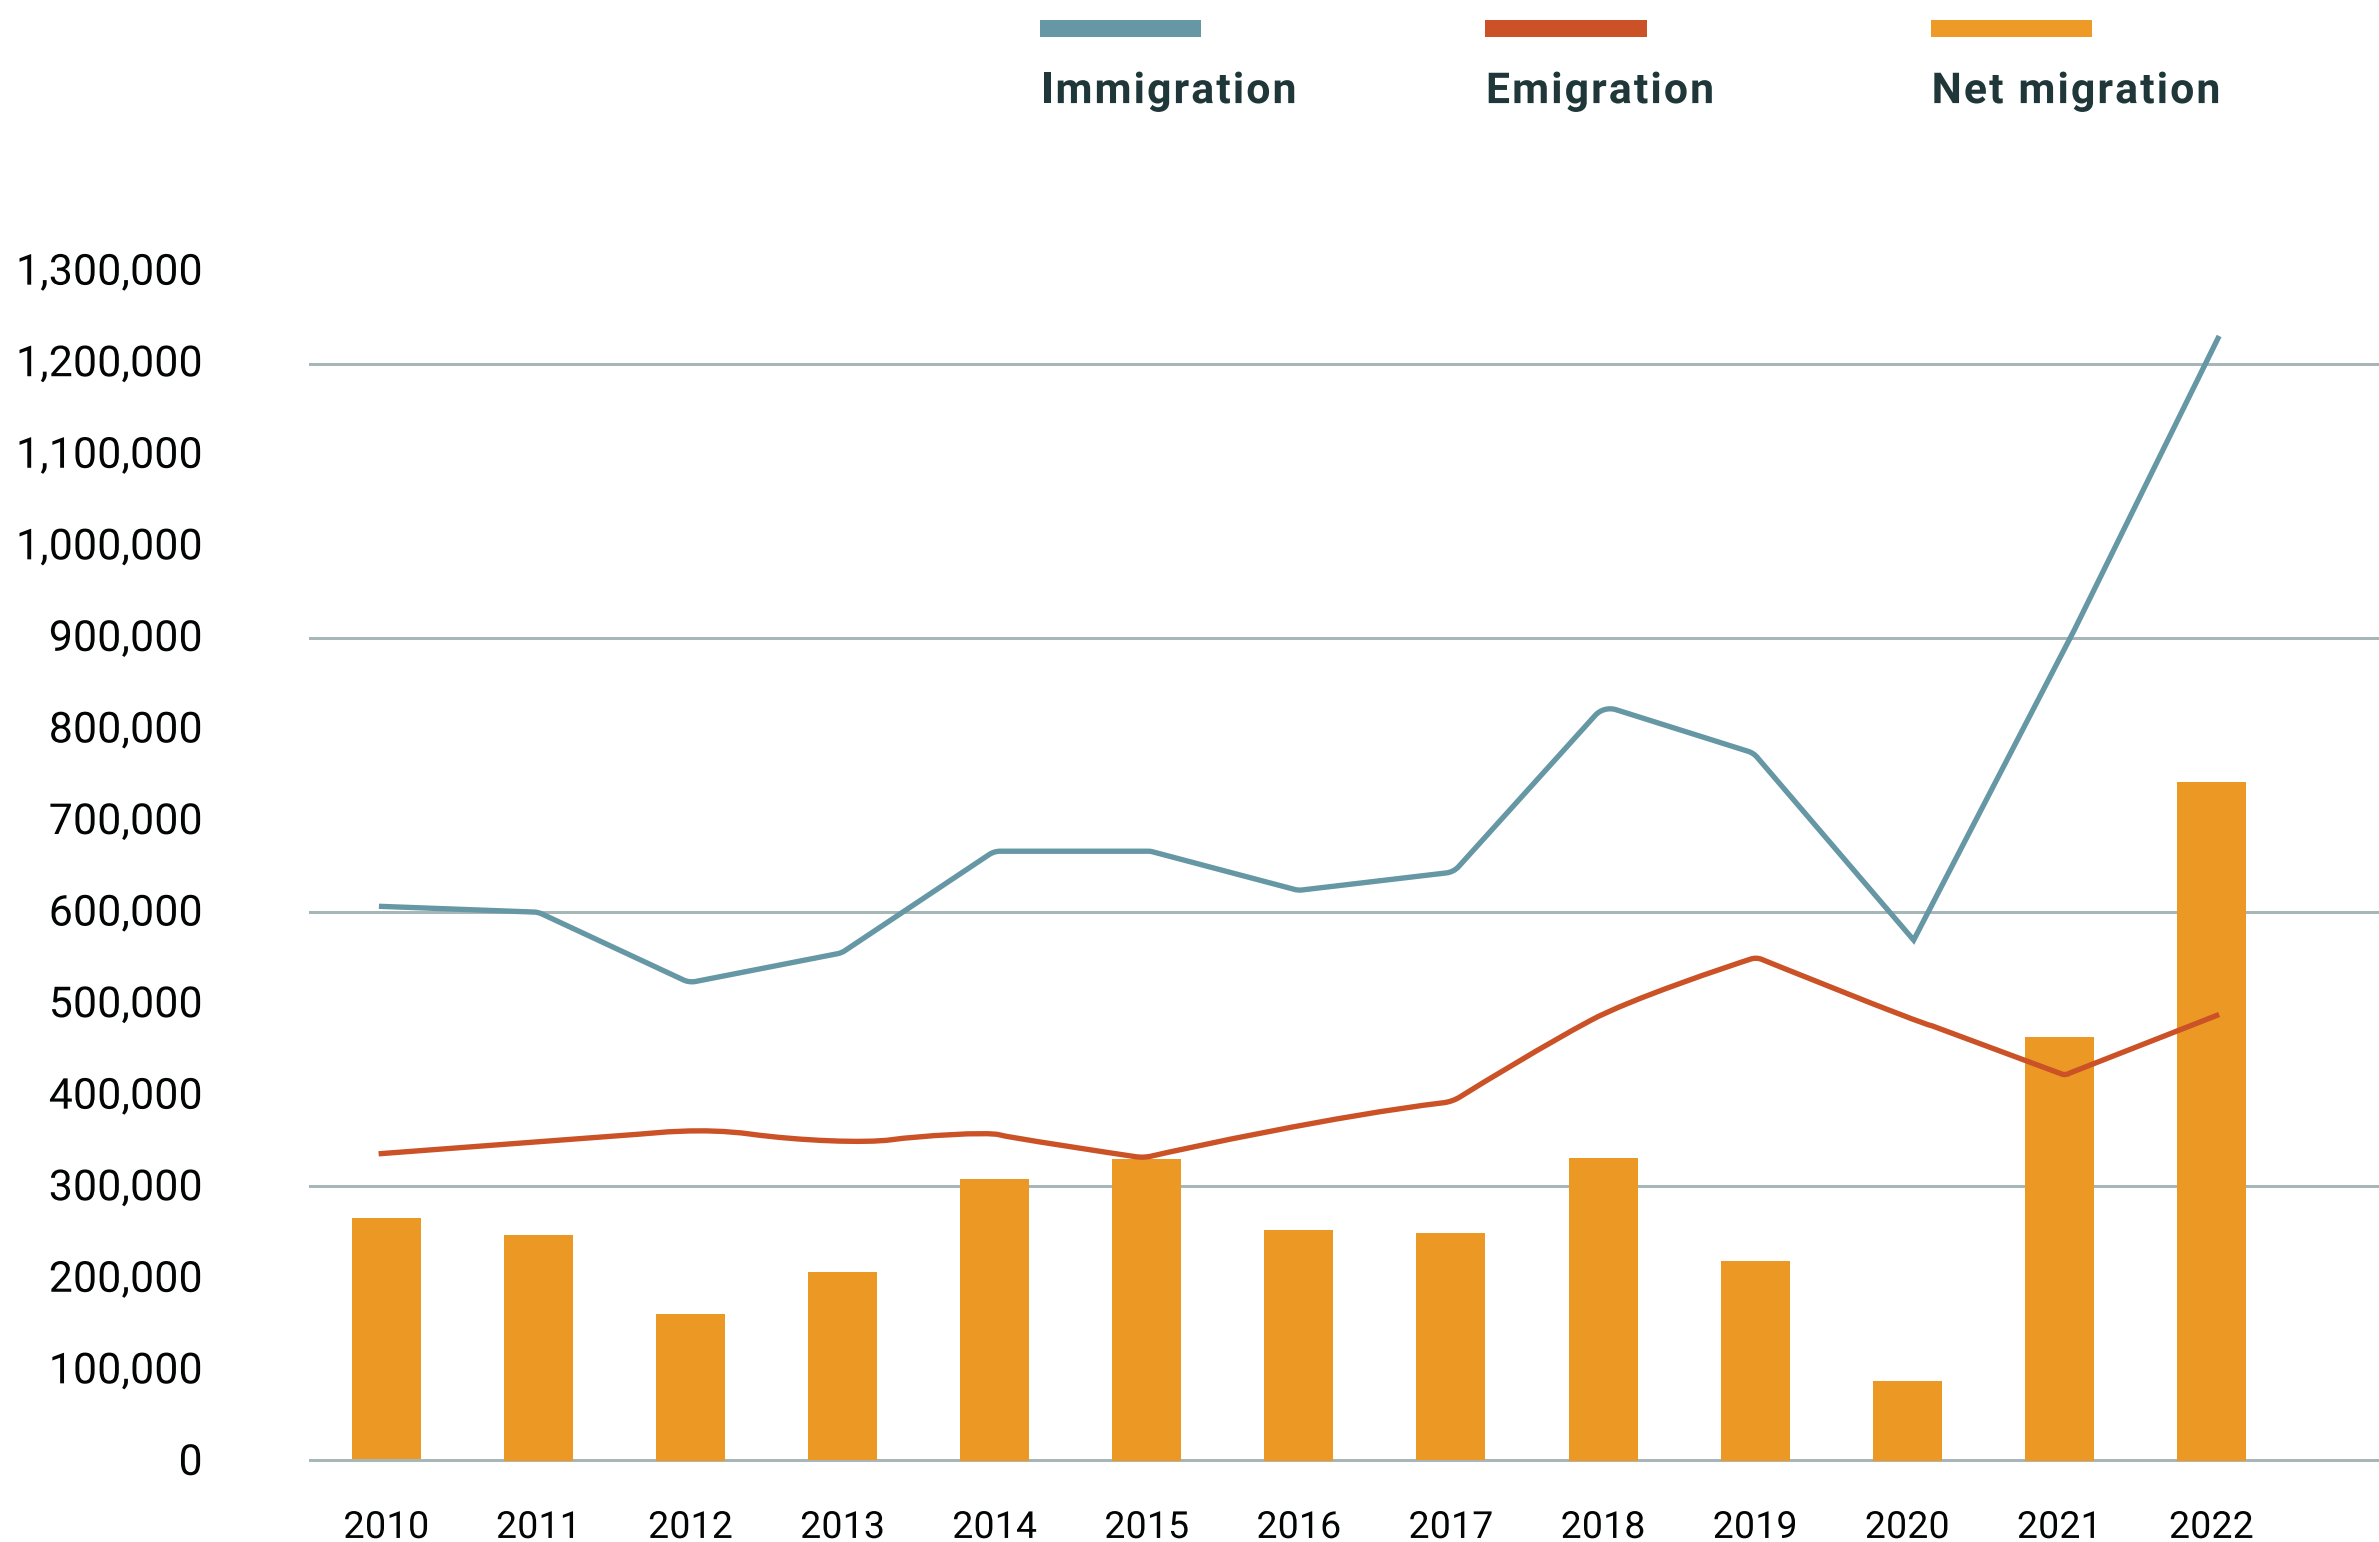

Figure 1: Estimates of long-term international migration, UK, 2010 to 2022

Estimated migration, in calendar years

Notes: ONS revised net migration between 2001 and 2011 following the 2011 Census. However, it did not revise immigration or emigration, so these do not match up with net migration during that period. All estimates from 2011 onwards have been revised at least once. These counts include British citizens. The method for estimating migration changed in 2018.
